

**Visit to North-American Mushroom Co.
In Tinley Park Proves Very Interesting**

The lowly mushroom comes into its own. Picture shows Stanley Mageira (center) manager of the North American Mushroom company in Tinley Park, explaining to Mrs. William Semmler, publisher of the Tinley Park Times, and Cliff Johnson, of the Johnson family radio skit, how sauce is added to cans of mushrooms in the assembly line, and how the cans are sealed and labeled.—Paul Leland photo.

**THIEVES BREAK
INTO STORE
IN NEW LENOX**

The new store in New Lenox, the "What Not Shop" on Church street, was broken into early Monday evening. The break-in was discovered when the owners, Mr. and Mrs. Charles Kerr, went to the store at about 7:30 p.m. to check the heater, at which time they found a window broken, in back of the store. At first they thought nothing of it, but upon finding a glue ball turned upside down beside the window and some pencils strewn about, they began to investigate. They called New Lenox police officer Al Ziegler, and when he arrived a call was made to the sheriff's office. Deputy Stanley Drake and Howard Martinson answered the call.

Several other articles were found nearby, and a check of the interior revealed that a number of articles had been stolen, such as bottles of glue, school compasses, roll and shelf paper, six or eight packages of bubble gum, Scotch tape, two miniature flashlights and batteries, etc.

Shoe prints were found in the mud outside the store. It appeared that entrance had been gained by throwing several small stones through the window. The broken pane measured 16 by 24 inches and through this opening the boys had climbed.

Later that evening the Kerrs received an anonymous telephone call informing them that the boys had been seen in the act of breaking in, and were known. The informant gave the Kerrs the names of the boys involved. Mr. and Mrs. Kerr state that if the boys will return what they took from the store they will not be prosecuted.

**Civic Assn. to
Hold Yule Outdoor
Lighting Contest**

For the past few years the Mokena Civic Association has sponsored an outdoor Christmas decoration contest. The practice will be repeated this year, as announced by Charles Swenberg, president of the association.

Prizes for the best outdoor decorations will be awarded as follows: first prize \$15; second prize \$10 and third prize \$5. There will also be certificates of honorable mention.

The judging will take place at eight o'clock Wednesday evening, Dec. 23. Anyone living in or near Mokena is eligible for entry in this contest. This includes Sunny Acres, Woodland Circle and the outlying farm areas.

It is suggested that those wishing to enter this contest should begin now to make plans for their entries.

**MOKENA LIONS
MAKE PLANS
FOR CHRISTMAS**

The Mokena Lions club report their car windshield washing campaign held two weeks ago netted them \$142.05. This will be used to buy gifts for the children for Christmas and for baskets for those in need.

The committee appointed by

Cliff Johnson of the Johnson family radio skit visited the North American Mushroom company in Tinley Park last Thursday. North American Mushroom sponsors a portion of the 8:15 to 9:00 a.m. radio program heard over WGN each morning.

History of the North American Mushroom company dates back to 17 years ago when Joseph Mageira started business in a small way in Tinley Park. Today, his son, Stanley Mageira manages a wholesale business that covers eight acres of ground, a completely air-conditioned series of buildings which produce 180 tons per year of the table delicacy known as the cultured mushroom.

The mushroom has its beginning in a strange way. After the area surrounding the buildings has been sprayed with formaldehyde, and weeds have been cut down, large piles of horse manure are treated with ammonium nitrogen, and phosphate over a twelve-day period. This compost is frequently turned over to allow air to enter and start chemical action.

The long, windowless buildings which house the flats, seven tiers high, are completely sterilized through an intense heat process after each crop, and are now ready to receive this base mixture. The flats are inoculated with the spore which is produced in the company's laboratory in Pennsylvania and then covered with a thin layer of top-soil. A 58 to 60 degree temperature and humidity must remain constant the year round. It is interesting to note that during the summer, this company uses more electricity than all of Tinley Park. Within three to four weeks the mushrooms are ready for picking, grading, washing, packaging and are on their way to markets all over the United States and Canada via refrigerated trucks and railroad cars.

Another mushroom companion product is the steak-sauce which originated in Tinley Park in 1929. The machinery used in the canning of the sauce was especially planned and designed by Mr. Mageira's father and is capable of an output of an output of 65,000 cans a day. This product too has a Canadian market extending from Nova Scotia to Winnipeg. In Montreal, where the people are primarily French, the introduction of the steak sauce is being planned with the label of the can in dialect French. Mr. Mageira and his grower, Frank Leto, conducted Cliff Johnson and his personnel, also Frank Jeffords, mayor of Tinley Park, Mrs. Margaret Semmler, publisher of the Tinley Park Times and guests through the plant last Thursday.

On the San Blas islands off the coast of Panama, the Indian woman selects the man she wants to marry, tells him what to do to earn their living and controls all the family's money.

The Lions of their members for the Christmas celebration consists of Lions George Carlisle, chairman, Bob Olson, Milton Geuther and Fred Lehmann.

The committee of the Lions club who is to consult the Chicago park group for advice to build a playground for the little children at the Mokena Park have the go-ahead sign since the deed of the park shows on examination that it is proper to do so. Lion George Bills gave that report for the Civic Improvement committee, recently.

**BOY INJURED
AS HE RUNS
ACROSS R. 30**

John Perzee, the 3½ year old son of Mr. and Mrs. Melvin Perzee, of Mokena, was badly injured when he was struck by an automobile while crossing Route 30 at Wolf road. The family now live on the Kropp farm near the junction of Route 7 and Wolf Road, and are in the process of moving to this farm at the corner of Wolf road and Route 30. They were down there last Friday doing some preliminary work when this accident happened. Little John was playing in the front of his new home when he suddenly ran across route 30 to go to the barn where his father was working and ran directly into the path of an auto going east on Route 30.

John's father heard the screeching of brakes as the car ground to a stop, and rushed out to see what was wrong, only to find his little boy lying on the pavement. The boy had not been directly hit by the car, according to Deputy Sheriff Wayne Thornburg, but the fender had brushed him and threw him to the pavement. Driver of the car was Fred Iben, 20, of Anamosa, Ia. Iben told Thornburg that he saw the boy dart into the highway and that he swerved his car sharply to avoid hitting him. He placed the boy in the car with the father, they brought him to Silver Cross hospital, where it was found the boy was suffering from a concussion of the brain, a blood tumor in his right leg, and a nose injury. He was later removed to a hospital in North Chicago, where the Perzee physician, Dr. John Bluche, is in charge of the case.

**GOUGAR ROAD
OPENED AGAIN
FOR TRAFFIC**

Gougar road, east of Joliet and south of Route 30, connecting link between Routes 30 and 6, was opened for traffic Saturday. It had been closed for 13 months. The bridge over Hickory creek was completed recently, and the work on the approaches has just been completed.

The floor of the old span collapsed in October 1952, spilling two cars into the creek bed. No one was hurt seriously. The old wooden span was more than 60 years old, and built for horse and buggy traffic.

A modern three span concrete bridge now spans the creek, the bridge has been raised and the approaches modernized. The new span is 200 feet long and has a 45 foot roadway as compared to the 14 foot roadway of the old span.

Contract for the span was given to the Joliet Bridge and Construction Co. last July, for \$88,422.

Replacement of the span was carried on under supervision of Burt Preston, county superintendent of highways, and the good roads committee of the county board of supervisors. The project, which was pushed through as an emergency measure, is to be paid for from motor fuel gas tax funds.

**Give Book Review
At Mokena PTA**

The Mokena PTA met in the school Tuesday night. William Sluis sent in his letter of resignation as treasurer, giving as his reason the fact that his work is too heavy to permit him keeping the position any longer. Mrs. Herman Lorenz was elected to take his place.

Garrit Swart reported on financial projects, and announced that an interesting color motion picture, "Our Heritage", will be shown in the school Saturday evening, Nov. 28, presented by Norman Hallock, lecturer, traveler and photographer. This is a wonderful picture that everyone will enjoy.

The PTA will sponsor the next square dance in the school on Saturday evening, Dec. 5. The square dances are proving to be very popular.

An interesting book review was given by Miss Beverly Schultz who teaches Latin and English at the Orland High school. This was a review of the book by Carl Sandburg, "The People—Yes," and at the same time she played a record made by Carl Sandburg in which he gave a synopsis of the book.

The room trophy was awarded for the second time this season to the first grade teacher, Mrs. Minnie Pester. Refreshments were served by the mothers of the fourth grade pupils with Mrs. Lyman Teague, chair man.

Mrs. Norville Robinson was appointed chairman of the Christmas tree committee, with Mrs. Garrit Swart assisting.

Thanksgiving DayBy
Lydia Maria Child

Over the river and thru the wood,
To grandfather's house we go;
The horse knows the way
To carry the sleigh

Thru the white and drifted snow.

Over the river and thru the wood,

O, how the Wind does blow!

It stings the toes,

And bites the nose,

As over the ground we go.

Over the river and thru the wood,

Trot fast, my dapple-gray!

Spring over the ground,

Like a hunting hound,

For this is Thanksgiving Day.

Over the river and thru the wood,

And straight thru the barn yard gate!

We seem to go

Extremely slow,

It is so hard to wait!

Over the river and thru the wood;

Now Grandmother's cap I spy!

Hurrah for the fun!

Is the pudding done?

Hurrah for the pumpkin pie!

**MRS. B. FRAZER
PASSES AWAY**

Mrs. Bernice Garrison Frazer, aged 95, died Nov. 18 at Rest Haven Nursing home, Joliet, where she had been an invalid patient for more than three years. Funeral services were held at the Goodale funeral home Saturday afternoon with Dr. John Phillips in charge. Burial was in the Lockport cemetery.

Born in Wheaton, the family moved to Evanston when Bernice was a child and she lived in the Chicago area until she was 17 when she began teaching in Barnett school, Homer township. She also taught at Marley and Laoni, Ill. Following six years of teaching, she married John Frazer, and lived on the Frazer farm until 1919 when they retired to Lockport, where she made her home until she was removed to the Nursing home where she died. Her husband preceded her in death 26 years ago.

Mrs. Frazer was a member of the Louis Joliet chapter of the D. A. R., of the Will county Historical society, and of the First Congregational church in Lockport. She was the first president of the Lockport Women's club and was instrumental in organizing the Will County Club league.

Surviving are one daughter, Mrs. Fred Trask of Lockport, two sons, James D. of Homer and George C. of Joliet, 10 grandchildren and 20 great grandchildren.

Her many friends testify to the truth of the tribute paid to her by Dr. Phillips at the funeral services in which he spoke of her fine attributes as a mother and citizen of the community.

**FOUR-CITY
LIONS PROJECT
NOW UNDERWAY**

Although the new Lincoln-Way high school for the four communities, Mokena, Frankfort, New Lenox and Manhattan, will not be in use until next Fall, the Lions clubs in each town are all set to launch a big project for its benefit.

The high school board does not have sufficient funds with which to equip the athletic field with lights, which means that all home games will have to be played in the afternoon, allowing very few adults time to follow their own team at its home games.

The New Lenox Lions club investigated the problem, consulted the Public Service company, Mr. C. Hunter Chapman, superintendent of Lincoln-Way, the high school board, and studied money raising projects of other Lions clubs. They concluded that the project could be successful if all four clubs cooperated in the job.

All four clubs individually endorsed the plan at their separate meetings with such enthusiasm that there can be no doubt as to its outcome.

The amount required is \$3,000. Public Service will run its line to the field at no cost, all material will be sold at cost, and club members will furnish the necessary labor.

An announcement will be made later as to plans for raising the required \$3,000.

RUMMAGE SALE

The South Suburban Council for Retarded Children will hold their Rummage Sale in Chicago Heights Saturday, Nov. 28. If you have anything you would care to donate, please call Mrs. H. Bormet, KE 2-2170 or Mrs. R. Bagby, KE 2-4683. Anything you can give will be appreciated.

**WM. A. HENTSCH
DIES AT 78**

Mr. William A. Hentsch, of Mokena, passed away suddenly Tuesday at the home of his son, Frederick, at the age of 78. He was born Jan. 8, 1875, in Tinley Park, and spent most of his life as a farmer in Mokena.

Surviving are six sons: John Henry, William, Christian, Edward and Frederick; two daughters, Mrs. Helen Bormet and Mrs. Freda Fabus, and 16 grand children. He will be resting at the Hirsch chapel in Tinley Park through Thursday, Thanksgiving Day. Services will be held at 2 p.m. Friday in the Immanuel Lutheran church in Mokena, with Rev. A. W. Gode officiating. Interment will be in Tinley Park cemetery.

**Betty Lou Loucks of
Homer, Engaged to
James S. Springer**

Mr. and Mrs. John A. Loucks of Homer township, formerly of Frankfort, are announcing the engagement and approaching marriage of their daughter, Betty Lou to James S. Springer, son of Mrs. Hazel Springer, of Morris, and Stanley Springer of Orland Park.

The wedding will take place Dec. 9, 1953, at 7 p.m. in the Homer Congregational church with the Rev. A. E. Talbert officiating.

No invitations have been issued but all friends and relatives are invited to the ceremony as well as to the reception which will follow immediately in the church social room.

Miss Loucks is a graduate of Peotone high school and is at present with the U. S. air force stationed at Minneapolis.

The groom is a graduate of Lane Tech, Chicago, and is about to receive his discharge as Airman First Class, from the air force.

**Harvey VanBuskirk
Opens Bakery On
Rte. 30 in New Lenox**

Harvey E. Van Buskirk has opened a bakery in New Lenox at the same location on Route 30 that Joe Lewandowski had occupied for several years, before moving to Joliet. Harvey E. VanBuskirk who was employed by Lewandowski at the bakery, lives with his parents, Mr. and Mrs. Harvey A. Van Buskirk in New Lenox, where they have lived for six years. Van Buskirk served two stunts in the army, one in Japan in World War II and, being a member of the reserves, he was recalled and served in Korea. In both cases he served as a cook and a baker. He has now been home from Korea for about a year.

Van Buskirk has taken a refresher course in baking with the American Culinary Institute at New Haven, Conn., from which he returned two weeks ago. He started operations in his new bakery last Saturday, and expects to carry the same high grade of goods and give the same fine service as his predecessor. His many friends wish him much success.

**Bettenhausen Drops
Out of Pan-American
Race After 2nd Day**

Tony Bettenhausen, of Tinley Park, well known Indianapolis speedway auto racer, entered the 4th Pan-American Mexican road race which started Nov. 19 and which consisted of eight laps, totaling 193½ miles, extending from El Paso, Texas to the Guatemalan border.

Tony drove a car the chassis of which was built by a man in California for the Indianapolis automobile race. The engine was a Chrysler engine, and belonged to Tony. Tony stayed in the race for the first leg, when he became sick and entered another driver from California by name of Wayne Carter who took over for him and drove for another day. Car trouble then developed, so Tony dropped out of the race the second day.

The first two days, he said, were very dangerous. There were a number of horse-shoe curves and many treacherous bends, and they thought it best not to take the chance.

Last Thursday, Nov. 19, Herbert Bettenhausen and Mrs. Tony Bettenhausen flew to Mexico City, to be there at the finish of the race, Herbert Bettenhausen flew back Sunday, and Mr. and Mrs. Tony Bettenhausen were expected back Wednesday of this week, with their mechanic "Frenchie" Sorio, of Lowell, Ind.

stitutional representative is grateful to the Post members who helped in the drive, and to the citizens who donated equipment and material to be collected.

**CANDIDATES DRIVE HARD FOR
NEW FORD AS GRAND PRIZE****8 Days Remain in Contest; Candidates
Appreciate All Help From Friends Now**

Pro-Rated Votes Standing:

Mrs. Virginia Sass	Marley	8,770,000
Mrs. Katharine Heisner	Frankfort	8,685,000
Mrs. John Minion	New Lenox	8,440,000
Mrs. Edward Mrosek	Orland Park	8,410,000
Mrs. Anton Benson	Mokena	8,380,000
Mrs. Mary Ritchey	Orland Park	8,360,000
Mrs. Creta Keuch	Tinley Park	8,290,000
Mrs. Charles Hostert	Mokena	4,300,000
Mrs. Florence Crouse	New Lenox	4,000,000
Mrs. E. Erdmann	Mokena	2,190,000

Mrs. Virginia Sass of Marley worked very hard to regain lead in the drive for subscriptions this week.

"Everyone, subscribers as well as candidates have come to realize that the most important week of the contest is now underway," Marvin Smith, campaign manager, reported.

In this period the votes count the highest. The winning candidates will be those who turn in the most subscribers and the most of those \$30.00 clubs which count 500,000 votes each.

Starting Nov. 31 until the close on the final day of the contest, votes of both new and renewal subscriptions will be exactly one half of their present count.

Thus this week can mean victory or defeat to many of the candidates. It will be the extra effort now, together with those three year new subscriptions that are gathered during this time that will count so much toward the grand prize and the four other prizes offered by the publisher.

A speed rate of 20 miles per hour in the business district and 25 miles per hour in the residential district was established. School zones were established on each street, adjoining the school property in the village within a distance of one block from the said school, in which the speed limit is set at 20 miles per hour.

The ordinance provides that commercial vehicles may be backed into any parking position for the purpose of unloading their products to any business establishment in the village for a period of not to exceed one hour.

**Annual Election
Of Mokena Park
Board Held at VFW**

A special meeting of all organizations in Mokena was held at VFW hall Tuesday night. This was the regular annual election for the purpose of electing five members to the park board.

When the new village park was established this summer, 10 members were elected to the board, five of whom were serving out the balance of 1953.

These five were reelected for a period of two years. They are Mrs. T. Arthur Shoop, Clarence Laufer, Henry Clark, Harley Mann and Gordon Bruce.

Dean Rueckert gave a brief report on the park, stating that the property is being surveyed to establish the boundary line. A discussion was held on laying the park out for various sports.

In the spring the board will start work on whatever seems to be most important.

**ORLAND FIRE
DEPT. DANCE**

Don't forget the annual dance given by the Orland Park Volunteer Fire Department, Saturday, Nov. 28, at Southmoor Country Club on 131st and Southwest highway. Dancing to start at 9:00 pm. If you have not as yet secured your tickets, you may do so from any member of the fire department.

**'54 CHEVROLET
TRUCK AT
TRUMPS SAT.**

Robert Trump, proprietor of Trump Chevrolet Sales at Frankfort, stated to this newspaper that he expects the coming year to be a great one for the trucking industry. He said that the 1954 model Chevrolet truck, which will be presented for the first time on Nov. 28, will more than completely cover the transportation field, both from the standpoint of economy and performance, than ever before. He said that Chevrolet advanced design trucks are more rugged than ever before, and feature durability. The net results to Chevrolet truck owners will bear out these facts. Road, time will be shortened and trip tonnage will be increased in these new trucks, he said.

Mr. Trump extends a cordial invitation to everyone to come and see this new truck Saturday. It will be on display in his show room at Frankfort.

**Installed 'Worthy
Matron' of Order
Of Eastern Star**

At a recent ceremony in the Masonic Temple, Joliet, Mrs. Frances Roberts of Homer was installed as 'Worthy Matron' of the Order of Eastern Star. Her husband, William Roberts, was installed as Worthy Patron during the same ceremony.

Following the service, Mrs. Robert's granddaughter, Susan Lynn Scott, presented her with a bouquet of yellow roses and Milton Sonntag, a high Masonic official, presented her with a silver gavel, which was a gift from her husband in honor of their 25th wedding anniversary, which will soon be celebrated by the couple.

Since Life Can Be Beautiful, Backstage Wife and a half-dozen other veteran daytime serials were lured from Chicago a few years ago, the local radio scene has been devoid of a real live "drammer." But now, even as Marley's Ghost, the spirits of departed soap operas are rattling around the WMAQ studios with the debut of Mission—Secret! a fast-paced action series on the adventures of Paul Rogers, diplomatic courier. The quarter-hour Monday through Friday serial (9:30 p.m.) spotlights Charles Flynn as Rogers, with Sandra Gair as Dorrie MacDonald, gal reporter-photographer type who provides the inevitable heart interest.

"UNCLE NED" LOCKE, whose Uncle Ned's Squadron has been a WMAQ Saturday favorite of youthful flying enthusiasts for over three years, took on two new chores recently. Locke—"Uncle Ned"—to a growing kiddy audience, real surname Norbert—reads Sunday Funnies on the TV program of the same name (WNEQ-Channel 5, 10:00 a.m. Sundays) with assists from Propeller Pete, offstage handyman who cues the jolly comics interpreter with a barrage of miniature planes, helicopters, balloons, parachutes and other airborne paraphernalia to which messages are attached. Great fun for the youngsters, and a convenient attention-getter to aid in "keeping clean

until Sunday School." Locke also writes the authoritative scripts for WNEQ's Jet Pilot, modern aviation program for teen-agers. Locke, practicing what he preaches, commutes by air between Chicago and Des Moines, where he serves Monday-through-Friday as director of the Iowa Aeronautics Commission. Most popular item on the NBC musical scene continues to be the Beethovenesque theme of Jack Webb's Dragnet series. Used as the punch line for countless nonsense jokes and puns, the "dum-de-dum-dum" is fast achieving immortality on college grids, being thundered out by the band of the home team whenever a referee's decision is against their school's pigskin pushers.

Music news is being made by NBC—Chicago announcer Jim Lowe, whose tune, "Gambler's Guitar," was a cross-country best seller in sheet music and records last summer. Lowe's newest ditty, "Santa Claus Rides a Strawberry Roan When he Takes Toys to Texas," ranks as the longest pop tune title extant; is entered in the Holiday record sweepstakes.

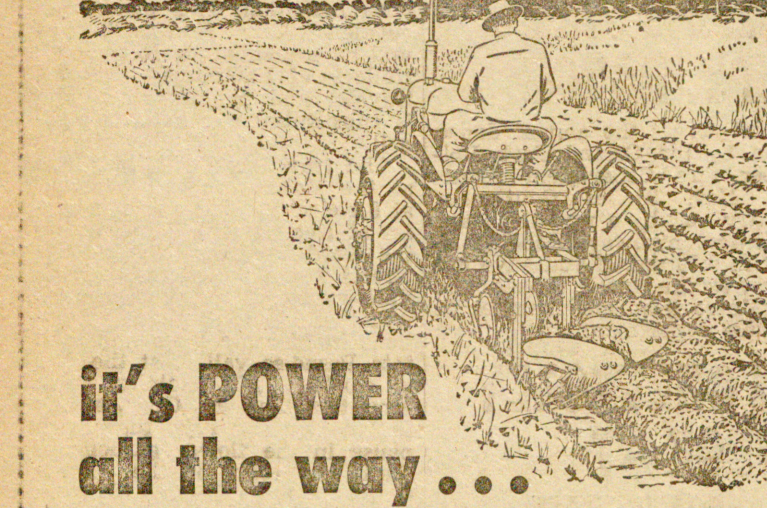

Q QUIPS: Art "Downtown With" Hellyer said it: "Saw a wonderful film on TV the other night—The Bifocal Thief—one of those imports. It certainly was a spectacle!"

Big things have happened in tractor engineering. In the Allis-Chalmers Model CA, Power-Shift wheels are instantly spaced with engine power. No jacks needed. FREE-SWING plows and implements are mounted on the tractor minute-quick. Hydraulic power lifts and lowers them at a touch of a lever.

CA full 2-plow power handles two 14-inch bottoms at full even depth. Weight is added to the drive wheels automatically when the going gets tough. That's TRACTION BOOSTER in action!

When harvest time rolls around, responsive TWO-CLUTCH power control lets you slow or stop the forward motion of the tractor without reducing PTO speed. This permits harvesting machine to handle sudden overloads... without shifting gears.

Chance For All
Lesson for November 29, 1953

AN INTELLIGENT traveler in Spain writes to an American friend in 1953: "We have just returned from a six-day trip to Franco's paradise. Madrid is a modern city of beautiful parks, squares and circles with fountains playing, a modern university campus and splendid buildings. Alongside these modern structures one finds people living in caves dug back into clay banks; sometimes a wooden door has been fitted into the mouth of the cave and a pane of glass put in the door for light. The more elegant of these residences have the door white-washed. As soon as the fields begin at the city's edge one sees men reaping wheat and barley with hand reaps-hooks such as

used in the days of Ruth and Boaz... We were told that there is nothing worth while outside Madrid. Nothing but 20 million people living in ignorance and economic slavery!" One has to see such a country to appreciate how in America we enjoy what is a heritage and a teaching of true Christianity.

Men Are Not Equal, But—

The crushing of the poor by the rich is one of the sins specially set down in the Bible as hated by God. (See the Scripture for the week.) The crushing of the weak by the strong is a problem always with us; but in our country we do at least try to keep the doors of opportunity open for every one. Our Declaration of Independence says that all men are created equal; which is not a fact, we feel. It is our belief, however—and let it be remembered, a belief taught by the Bible—that every child born within our borders shall have a fair chance to develop every gift and capacity he has, to go as far as he can go and to do as much as he can do for his family and community. "Democracy" is a word of many good meanings; and the basic meaning is equality of opportunity.

For one thing, we try, at least in part, to see that no child shall be penalized in his education for being born where he was and not somewhere else. As a matter of fact, of course, not all schools are equally good. Some states have such poor schools, or such poor school laws, that children from there are handicapped in competition with children from states with better schools. But even where this is true, it is widely felt that this ought not to be. Educational leaders are not complacent about this state of things. Further, many states have equalized their school funds so that children born in remote sections will have just as well-equipped and well-staffed schools within reach, as children in the larger cities.

Fair Chance At Jobs

Another angle of equality of opportunity is a fair chance at jobs. Some one is sure to ask: What has religion got to do with this? Well, look at the Bible. Paul said that a man who will not work shall not eat—that was his rule. We all know the commandment, "Six days shalt thou labor," and we all have observed how important it is for the development of personality that a man or woman shall have work that suits his capacity and gives him a chance to be a producing member of society. So if men are cut off from the chance to work, or not allowed to compete for the kind of work for which they are fitted, religion says: This is wrong, whenever one of God's children is barred from a God-given right.

Fair Chance At Religion

There is another kind of equality of opportunity even more important than what has been mentioned. That is equality of opportunity in religion. "Freedom of Worship," as it is often called, is not just the legal right to worship under any church roof one pleases. It is the right to be faced with the choice God offers us in Christ and to share in his fellowship everywhere. It is not enough that your community has (as it does, no doubt) a variety of churches. The question is: Is every one in your community equally welcome in all these churches? Are there persons in your community who never come to church, because they have never been asked?

"Soil is Sacred" The 1954 Election

Our American forebears were people of the land. They lived close to the soil. They understood the miracles of nature and her inexorable laws. They held a deep religious faith that supported them in adversity to an extent beyond the comprehension of many living in the carbon-monoxide fumes of cities.

Those who drive through the countryside nowadays profaning the beauties of nature by tossing beer bottles and papers along the roadside and who

think of necessities solely in terms of the nearest store counter or show window, would do well to spend a few minutes contemplating the words of Rev. Louis Deuster of Muenster, Texas: "In modern life, we too need a reasonable abundance of the good things of the earth in order to carry out a proper religious program for families and communities. That is why it is not saying too much to declare that 'soil is sacred.' The things we reap from the soil become our means of developing our churches, our schools, our community resources. Without these our children could not be properly brought into the world, reared, and educated. Christianity would fail of a great part of its mission if material resources 'in due abundance' were lacking.

"We therefore please God when we take good care of the soil and its resources entrusted to us."

Why the big swing is to Ford!

More than a million buyers decided on Ford this year... because Ford's "worth more when you buy it... returns more of its worth when you sell it!"

They like it in traffic! They're swinging to Ford for good reason. Only Ford in its field offers you a choice of V-8 or Six, with the smooth, agile performance you need for getting around in today's kind of traffic. You get a choice of three great drives... conventional, fuel-saving Overdrive or Fordomatic, the only automatic in Ford's field with an automatic intermediate gear for extra GO. You get the full visibility you want, too... the most in Ford's field.

They like it in the hills!

Both V-8 and Six give you hill-flattening GO on "regular," thanks to the Automatic Power Pilot. And Master-Guide power steering, available on all V-8's, makes turning up to 75% easier yet retains the natural "feel" of steering on the straightaway.

They like it for ride, for room, and for just plain good looks!

Front end road shock alone is reduced up to 80%! Ford's wide seats accommodate six, while the trunk is a whole suitcase bigger. And Ford's good looks speak for themselves.

Thanksgiving Day 1953

Thanksgiving Day is the annual Fall Festival in the United States, set aside for giving thanks to God for the blessings of the past year. It is celebrated

with church services and family gatherings as one of the great American feast days.

The first Thanksgiving proclamation in America was issued by Governor Bradford of the Plymouth colony in the autumn of 1621, in gratitude for the first harvest in the New World. They gave thanks because they had a prospect of living through another year in the freedom for which they had left Europe.

We still have that freedom. Let's be thankful for it, and guard it well.

WOMAN KILLED IN AUTO CRASH

Mrs. Mary Sir, 84, of Kankakee, died in St. Mary's hospital, Kankakee, shortly after the car in which she was riding hit a tree near routes 30 and 45, near Frankfort, at about 10 o'clock Sunday morning. According to State Patrolman William Hamilton, Mrs. Sir was riding with her son, Edwin, 49, and her daughter in law, Mrs. Ella Sir, who was hospitalized, but the son escaped injury. Also with the group was Bonnie Sir, a daughter, who, too, escaped injury in the crash.

The Sir family were northbound on route 45 and as they rounded the curve the approach to route 30 the car went out of control and struck a tree.

An inquest into the death of Mrs. Mary Sir was held at the Kankakee courthouse Monday afternoon.

Frankfort-Mokena Home Bureau
The Frankfort-Mokena Home Bureau meeting was held in the home of Mrs. George Elsner, November 17. Eleven members were present, and two visitors, Mrs. William Seemann and Mrs. Burke, both of Frankfort.

Glass etching and candle making was enjoyed by the group, as this had been the unit's choice for the month of November.

A vote was taken whether to serve refreshments, or not. Six voted No and 5 Yes. It was voted unanimously to have handicraft lessons once a month, apart from the regular monthly meeting.

The question of a potluck Christmas dinner brought 4 No and 8 Yes. A collection of Pen-

LASSES DEER SWIMMING IN DEEP WATERWY

A two-point buck deer was hauled from the deep waterway near Romeo Monday by employees of the Material Service company. Bob Schwarz, of Joliet, who was driving a truck along the banks of the canal to check on some company barges, was the first to notice the animal, which was headed downstream. With Schwarz was Ed Hall, also of Joliet.

One of the barges was pressed into service, and from the barge Hall lassoed the deer with one of the barge ropes. Assisting in the job were Edward Donnelly, of Joliet, and James Brown, of Tullula, Ill.,

who is at present residing in Lockport.

The barge, with the rescuers standing on it, was towed downstream about two miles north of the Ninth st. bridge, and then guided to a spot where the deer could be taken from the water without difficulty. The animal appeared to be in good health, but, of course, was tired from the long swim.

Disposition of the deer was to be determined by Game Warden William Miller, of Plainfield, who planned to come to the Material Service Co., where the deer was being kept pending his arrival.

It is unlawful to shoot deer in the State of Illinois.

Where is the Fire?

What we are to do in this land of speed and hurry with the added automobile drivers who figure it is smart to hit it up to 80 so long as their rear vision mirror shows no officer on their trail—that is the question. It is not just gawky teenagers, it is smartly mamas and papas too, who speed, who cross double line on the pavement—who have no idea as to what is an arm signal—who put manners and courtesy on ice, once they step on the starter and take off.

We might slow down the speeding part, if we went back to 20 horsepower versus 150 horsepower engines. But the matter of manners and courtesy, out the window as now—will require stern means. One police officer per mile might cut the mustard. Even that is doubtful. And while on the patrolmen subject, of all the folks who deserve

the highest praise and the most liberal pay it is these men who try so to manage traffic that the fewest victims will be carted to the undertakers.

As a starter on highway safety, all budgets for police and patrolmen should be boosted—even if your town has to fire its barn dance director or even your

Mr. and Mrs. Dan Muehlstein are happy over the arrival of a six pound one ounce baby girl born Sunday, Nov. 15. A sister Marybelle welcomed the new baby home.

The yearly arrival of chicken-pox has caught up with Carol Schmidt and Peggy Bell. Quite a number of the Orchard Hill Kindergarten children have been confined. Carol also had the misfortune of falling and break-

ing her index finger several weeks ago.
Mr. and Mrs. Norman Prythor of Sayre avenue announce the arrival of a baby girl born Nov. 17.

Jimmy Goss, nephew of Mrs. J. Schumde, is home on a 16 day furlough. He graduated with third highest honors in the school for meteorology at Ft. Sal. Okla., Nov. 13. He is due at Camp Kiln, New Jersey, Dec. 1 from where he will be sent to Austria.

Friends of Diane Albright surprised her Wednesday evening Nov. 18 with a party in honor of her 16th birthday. Those present

were: Marcia Szaton, Diana Glahn, Francine Gallina, Nancy O'Neil, June Hood, Judy Callahan, and Patty DeGoven.

The November Neighborhood Scout meeting was held last Tuesday. The main business of the evening was the election of officers for the two year term beginning Jan. 1954. Ruth Jochum, chairman and Gloria Clement, secretary-treasurer, were elected. There will not be a neighborhood meeting for December unless some emergency arises.

Mrs. James English and daughter, Mrs. C. J. Sprague, drove to Cloverport, Ky., last week to attend the funeral of Mrs. English's uncle, S. T. Bandy, a retired army captain.

Mr. and Mrs. Wm. Schumacher announce the birth of a grand child, Dennis William, 7 pounds 11 ounces, on Nov. 11, at the Silver Cross hospital, in Joliet. Their son, Herbert, the proud father of the baby, is serving with the Air Force in Alaska. His wife is making her home with her mother, Mrs. E. Show in Alpine.

Jim English and William Funk returned Friday from Crane Lake, near Havana where they spent several days duck hunting. Their luck wasn't too good.

Michael Carr celebrated his seventh birthday, Saturday afternoon, Nov. 14 by being host at a party for his friends, John Heinzen, Gay Ann Gaylord, Judy Hollingshead, Lee Hopman, Collin Sorensen, and Frankie Craft. Michael's younger brother enjoyed the party also. Prizes were awarded to the winners of several interesting games. Birthday cake and ice cream were served and each child was given a few pennies to buy candy at Michael's play store.

Mr. and Mrs. Edward Ryan and daughter Pat, of Florida, spent Thanksgiving with their parents, Mr. and Mrs. R. J. Ryan.

Mr. and Mrs. Milton Carr entertained Mr. and Mrs. Don Hollingshead and Mr. and Mrs. Edwin Hug at their home Saturday evening.

Last Sunday night Bonnie and Ronnie Hogue, and Edward Funk had the pleasure of entertaining by singing and playing at Chuck Cavallini's restaurant in Midlothian.

Chief Harold Moore and family spent Thanksgiving with his wife's aunt, Mrs. Wayne Webb, in Peoria.

'U.S.A. 1975'

Following is the second article of this series:
Doubling of the national income without resort to inflation is well within the reach of Americans in the next 22 years, declared a report just issued by the National Association of Manufacturers in analyzing the future "potential" of the United States.

Reporting on its figures concerning the nation's "potential" for maintaining an ever rising standard of living for a rapidly growing population, the Association said that "projections of recent and long-term trends lead to the conclusion that the United States can support a much larger population than it now has and on a level substantially above that now enjoyed by the average citizen."

The Association's economists estimated that the national income, which was \$291.6 billion in 1952, "can substantially rise" to \$600 billion by 1975.

With a 1975 population of 190,000,000 persons, which the NAM cites from government estimates, a national income of \$600 billion based on vastly increased production would mean a per capita income of about \$3,200 compared to the 1952 per capita income of \$1,860.

These estimates of national and per capita income for 1975, it was pointed out, stated in terms of dollars with a buying power equal to 1952 dollars, are not to be interpreted as forecasts but rather appraisals of the nation's potentialities.

All that NAM's economists are saying is that "we have the resources, physical, human, technological, and all the others, to keep forging ahead for many years to come."

In an earlier report on the figures which are being made public throughout major cities, the Association said that the purpose of its data was to focus public attention on "America's growth and economic potentials, and thus pave the way for setting up goals and charting the future."

The NAM has estimated that a population of 190,000,000, an increase of 33,000,000 over the 1952 figure, will provide the country with a work force of

88.6 million by 1975. This represents a gain of 22.1 million, or approximately a third more workers than in 1952.

This very large increase in the work force will "create both opportunities and responsibilities for the leaders of tomorrow" the report commented, and added, "Immense more goods and service can be produced, goods and services that will be needed by our higher population. Opportunities will be plentiful for those who see and seize them."

The major "uncertainty," it was pointed out, is whether Americans "adequately understand" their economic system to "guard against changes which would weaken or destroy the incentives it provides for people to work and produce."

All of the NAM's estimates of the nation's potential capacity to provide jobs for its growing work force, and raise living standards for a mounting population are based, it was stated, "on an assumption that the people do value their individual enterprise system and will strengthen, not destroy, it in the coming years."

BABSON SAYS-

Although I own a 12,000 acre ranch in Florida, I have never gone in for livestock raising; hence, I am by no means an expert on this branch of agriculture. What I have to say on the subject is purely from the layman's point of view.

The cattle business is an up and down affair, and is one in which the inexperienced operator can lose his shirt. For about a dozen war and postwar years the industry prospered. Everyone in it was making money, and as a consequence everyone wanted "to get into the act" with or without experience. The big operators also expanded, despite high prices for stockers and feeders. Cattle numbers increased rapidly, until the number on U. S. farms hit an all-time high of 93,696,000 head as of January 1, 1953. The number on feed on that date also stood at a record high of 5,836,000 head—16% above a year earlier. The cattle cycle trend cannot quickly be altered.

Attractive prices were the chief expansion lure. Weekly average cattle prices had soared to \$37.35 a hundredweight by September 1951. In April 1951, prices of heavy steers at Chicago stood at \$43.50. But trouble in the form of drought was brewing in the Southwest. Prolonged hot, dry weather scorched the Southwest and other areas in 1952 and 1953. Pastures virtually evaporated. Feed shortages mounted in the stricken areas. Many ranchers had no alternative but to rush their cattle to market. As a result, the bottom fell out. Cattle prices at Chicago recently averaged \$25.40; heavy steer prices \$29.75. Many cattle raisers today are in serious difficulty.

The Law of Action and Reaction applies as much to the cattle industry as it does to any other industry, or to the entire national economy. Overexpansion in any direction inevitably leads to a readjustment, which often is painful. We appear to be at or near a cyclical peak in the number of cattle; the next broad move will be down. Even so, the number of cattle on farms next January may not differ materially from that of a year earlier. This means that slaughter and supplies of beef will continue large, seasonal factors considered. Bearish factors, however, now appear to be fairly well discounted, barring a further serious drought, or a sharp business recession. Florida surely should do better.

Many cattle producers are asking for Government support; but many others want to stand on their own feet and see the thing through. I doubt that Uncle Sam will support cattle prices; but may extend aid to drought stricken sections. Smart cattle men who tend their own cattle, with ample pasture and feed, should be able to make money in cattle next year. But it remains an uncharted enterprise for the inexperienced and those who do not ride the ranches themselves. It is fraught with risk, yet full of challenge for the man with livestock in his blood and knowhow in his head.

The hog cycle is a short term affair and is more closely under the control of the producer than is the case with cattle. The so called hog-corn ratio is the determining factor. U. S. hog production hit a record high of 101,811,000 head in 1951. This year's indicated crop of some 24,000,000 head is a five year low and prices have been correspondingly high—higher, in fact, than in any other years except 1947 and 1948.

What is the outlook for next year? With the hog-corn ratio currently around 15.0, compared with 11.9 a year ago, I forecast an increase in hog production. The 1954 spring pig crop may top that of a year earlier by 5% or more. These larger supplies will not come on the market until the second half of next year. Prices in the fall of 1954, as a result of increased marketings, may show more than the usual seasonal decline. Although hog prices currently are under mild seasonal pressure, they should be followed by a good recovery later.

I am not optimistic over the sheep outlook. The industry has been on the downgrade in the U. S. since 1942. Feeble attempts at expansion were made in 1951 and 1952, but were not

sustained. Increased production costs, plus stiff competition from foreign wool and synthetic fibers, argue against any major upturn in domestic sheep numbers over the next few years.

The Missus Keeps Posted

Ever since our electricity was cut off last year on account of me forgetting to mail in the payment, the Missus has been sort of leery about giving me letters to mail.

At first she'd ask if I mailed them, then double-check my coat pocket at night. She stopped that, and I figured she was convinced I'd learned my lesson.

Then yesterday, I got a postcard at the office in a familiar handwriting. I turned it over and by golly it was from the Missus herself! It read: "Thanks, Joe, for mailing my letters." Well!

Looks like she figured I still needed some checking-up and slipped that postcard in the last batch of letters.

From where I sit, an occasional check-up is a good thing. Check-ups on just how tolerant we are of other people's preferences and tastes, for example. I like a glass of beer with supper, you may prefer cider—but if I ever try to switch you to my choice, simply "address" me with a reminder of your rights.

Ordinance No. 42
AN ORDINANCE PROVIDING FOR A CURFEW HOUR FOR CHILDREN UNDER SIXTEEN YEARS OF AGE

BE IT ORDAINED by the VILLAGE OF NEW LENOX, ILLINOIS, THAT:

Section 1. Regulations: It shall be unlawful for any person under the age of sixteen years to loiter, wander, stroll or play in or upon any street, alley, sidewalk, parkway, park, playground or other public place in the municipality, or in or on any public building, place of amusement or entertainment or any vacant lot, at any time between the hours of 9:30 p. m. and 6:00 a. m.; provided that nothing in this section shall be construed to prevent any child from being in or on any such place in the company of his or her parent, guardian, or other adult having lawful custody of such child; nor shall this section prevent any child being in or on such place in the performance of a lawful errand or business with the consent of the parent or guardian of such child.

Section 2. Parents: It shall be unlawful for the parent, guardian or other person having custody of a child to permit such child to violate any provision of this ordinance.

Section 3. Penalty: Any person, firm or corporation violating any provision of this ordinance shall be fined not less than One Dollar nor more than One Hundred Dollars for each offense.

Section 4. This ordinance shall be in force from and after its passage, approval and publication as provided by law.

Passed this 7th day of November, 1953.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

The hue and cry for Agriculture Secretary Ezra Benson's scalp points up the fact that anybody who holds this post under present conditions is destined to be a hapless goat, unless supplied with billions of dollars to play Santa Claus.

Secretary Benson took stand against heavy spending farm programs as a matter of principle.

Benson's defenders state that falling farm prices started before he took office. Available Washington records appear to prove this.

Some in Washington hold there is no solution to the farm problem. Others claim that the only solution is free trade so that

America's First Sports Car Reaches Market

One of the most widely discussed automobiles—the Chevrolet Corvette—has been placed in distribution. A two-passenger open model (with removable top), the car is the American auto industry's first sports car and the first to carry a plastic body built by mass production methods.

The Corvette measures only 33 inches high at the door. Wheelbase is 102 inches. Traditional Chevrolet features include a special 150-horsepower "Blue-Flame" engine and a Powerglide automatic transmission. Production followed special showings of an experimental model in many cities.

Methodist Team Sets Record 72-11

The Methodist church team set a new record in the Tinley Park church league Tuesday evening, as they scored an easy victory over the Lutheran church, 72-11. The 72 points broke the old record by 9 points.

Dave Hutchinson was high scorer for the game, with 28 points, while Elmer Gintner added another 13 for runner up. The Methodists also set a defensive record as they held the Lutheran team scoreless in the third period and to but one point in the second half.

Dale Hartwig led the losers with 6 points. The unbeaten Mixed team ran into their toughest game yet, but beat the Catholic team 36-29. In a close game all the way St. George team held a half time advantage of 13-12 and trailed 26-24 at the start of the 4th quarter. Jack Tomlinson and Ron Stege led the Mixed team with 12 points each, while Dan Czernick scored the same for the losers. The victory gives the Mixed team a perfect slate of three wins.

Next Tuesday the Catholic vs. Methodist as 7:15, and at 8:30 the Lutherans vs. the Mixed teams.

Standings: Mixed 3-0; Methodist 2-1; Catholic 1-2; and Lutheran 0-3.

Scoring leaders: Ron Stege, Mixed, 48; Dale Hartwig, Lutheran, 47; Dave Hutchinson, Methodist, 47; Roy Mortenson, Catholic, 45; and Jack Tomlinson Mixed 36.

GREEN GARDEN

By Mrs. Katherine Heiser
Telephone Frankfort 4902

The public is invited to attend a musical Thanksgiving program which will be given at the Green Garden Methodist church Sunday evening, Nov. 29, starting at 7:45 o'clock. There will be singing by the choir of the Peotone High school, and by the mens quartet of Green Garden Methodist church. The ladies sextet and chorus of the church will participate and a saxophone trio and organ and piano duet will also be featured.

Forty members of the Green Garden Home bureau went to Chicago last Thursday by chartered bus from the Gold Star line at Frankfort. They attended the Breakfast Party with Danny O'Neil; went to China Town where they had dinner and later were guests at the TV show, and Petticoat Party. All enjoyed the day.

The Young Ladies circle of the Green Garden church met with Mrs. William Bettenhausen last Tuesday afternoon. Dessert-coffee were served at 1:30. Devotions were given by Esther Bettenhausen. The discussion was on Discipline and was led by Mildred Davis.

The WSCS met in the Methodist church Wednesday afternoon with Mrs. Emil Andres and Miss Emma Andres as hostesses. Mrs. Edwin Dralle presided. The devotions were led by Mrs. Norman Krapf and Mrs. Clarence Johnson, their subject was "Scientific Knowledge of Stewardship."

Mrs. Harry Waldhauser entertained her pinocle club last Wednesday afternoon with 12 members present. Prizes were awarded to Miss Esther Bettenhausen, Mrs. Carl Toepfer and Mrs. Donald Wilke. Luncheon was served following the game.

Miss Joyce Scheer was one of the choir members of 14 voices who sang Sunday over radio station WKAN on the program sponsored by the Bennett Industries.

Better Grain Storage

ADEQUATE, safe grain storage is a problem on many farms. The secret of proper storage lies in the lining of the bins. Farmers are wise, in the slack season, to check the condition of the lining and, if necessary, replace or repair it.

Numerous farmers are finding that Masonite quarter-inch Tem-

pered Presdwood is ideal for this purpose, from various standpoints—economy, quick installation, long life, resistance to moisture and rodents.

These panels may be used for lining a new structure or relining present bins. They may be applied directly to the studs or over the worn-out previous liner.

As flooring in the storage bins, Tempered Presdwood presents a smooth, easy-to-shovel-on surface that cannot splinter, split or crack. The lumber dealers who supply this all-purpose hardboard have information on proper nailing.

HE ALWAYS COMES THROUGH

Richard Healy, 9, muscular dystrophy victim from Yonkers, N.Y., thanks the man who may help save his life. Herb Gebhart, Yonkers letter carrier, will be one of the 100,000 letter carriers throughout the nation who will call on every American home after Thanksgiving for funds to aid the hundreds of thousands of victims of this crippling, fatal disease. Backing the giant effort are U.S. Postmaster General Arthur E. Summerfield and William C. Doherty, president of the National Association of Letter Carriers (AFL).

Your generous contribution when your letter carrier calls may save a child's life. If you miss your letter carrier, contributions may be sent to MDA, care of your local Postmaster.

The remedy for evil thinking, fearful living, and wrong doing is to acknowledge the divine Mind as the source of all right thinking and acting. This will be explained in all Churches of Christ, Scientist, on Sunday, November 29. The subject of the Lesson-Sermon will be Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, De-nounced.

The Golden Text is from III John (1:11) "Beloved, follow not that which is evil, but that which is good. He that doeth good is of God: but he that doeth evil hath not seen God."

Lesson-Sermon passages from the Bible (King James Version) include:

"And now, Israel, what doth the Lord thy God require of thee, but to fear the Lord thy God, to walk in all his ways, and to love him, and to serve the Lord thy God with all thy heart and with all thy soul. To keep the commandments of the Lord, and his statutes, which I command thee this day for thy good?" (Deut. 10:12, 13.)

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include:

"Divine Mind rightly demands man's entire obedience, affection, and strength. No reservation is made for any lesser loyalty. Obedience to Truth gives man power and strength. Submission to error superinduces loss of power—Every mortal must learn that there is neither power nor reality in evil" (pp. 183, 186).

Milk Driver Robbed In Palos Township

(CNS) A milk driver's habit of stopping at the same time and place every day to rearrange the milk bottles in his truck cost him money recently. He is August Calderone of Forest Park who has the habit of stopping his truck at the same time every afternoon at 127th township. He was rearranging the milk bottles when five men pulled up in a car. One asked for a bottle of chocolate milk and then pulled a gun. The robbers took \$75 and forced Calderone into the getaway car. He was dumped out after riding a half mile east on 87th street.

MARY A. MCAULEY, left, and ALICE J. TWOHIG, below, have retired on pensions after each had spent more than half a century in the telephone business.

Miss McAuley started as a telephone operator in the days when salaries were \$10 a month. She has completed 51 years and 2 months of service—one of the longest periods of service of any woman in the Bell System—and says, "I loved every minute of it."

Miss Twohig remembers when operators' telephone headsets weighed 6½ pounds. (Today they weigh less than 6 ounces.) She left Illinois Bell recently after 50 years and has been very active since in the Telephone Pioneers of America, an organization of over 170,000 Bell System men and women with more than 21 years of service.

**101 years of telephone service—
and the voice has never lost its smile!**

We'd just like to say "well done" to these two veterans of the switchboard. It's good to see that even after half a century the voice has never lost its smile.
